

Tube Nuts

Most BrakeQuip tube nuts have two distinct features for easier installation & dismantling.

1. **A small step on end of the thread** – This allows for easier installation because the step acts as a guide & makes it easier to start the thread. It also gives the thread clearance at the end which eliminates the problem of flaring out when over tightened. If this happens, the nut can be very difficult to remove & can some times destroy the thread when removed.
2. **A thread relief under the hex** – apart from looking more professional, this allows the nut to be screwed down right up to the hex if necessary.

FEATURES:

- Male & Female
- Imperial & Metric Threads
- Various tube sizes
- Zinc plated for corrosion resistance

Assortment kit available.
To order see Part No.

BQ7005 & BQ7006.

See page 8 for Assortment Kit
